Innovation. It's not just about the big idea. It's about the work you put in. The details. And pushing forward until you've created something unlike anything that has come before it. That's EGO. That's Power Beyond Belief.

The technology used in the EGO POWER+ system breaks the mold. It begins with the EGO's 56-Volt Arc Lithium[™] battery. Unlike other battery packs, which are shaped like bricks and retain heat, ours follows a patented "arc" design. Inside, we developed the most advanced software-management system ever created in a lawn and garden product. And our proprietary "Keep Cool" cell technology works with each battery cell to maintain long-lasting power and unmatched performance. The EGO POWER+ system also boasts a revolutionary charging system. In just 30 minutes, a depleted battery can be fully recharged: another first in the lawn and garden world. Power Beyond Belief starts with better technology. That's what puts EGO's power, performance and durability on whole new level.

GAS POWER HAS MET ITS MATCH

LOW NOISE-LOW EMISSIONS-LOW VIBRATION

CUSTOMERS DEMAND IT-EMPLOYEES DESERVE IT

The EGO POWER+ System has the power to match gas, without the noise, fuss or fumes. EGO's industry-leading Arc Lithium 56v battery technology delivers a new level of performance, giving you the dependable power you need to keep working hard until the job's done.

A cordless system like this offers the ultimate in convenience. There are no trips to the gas station for fuel and no more having to store highly flammable liquids. Instead, you get the freedom to work exhaust- and emission-free. For real flexibility. The same Arc Lithium battery fits every tool in the EGO POWER+ line-up. Just click in the battery and you're ready to go.

All EGO POWER+ products come with a 5-year warranty on tools and a 3-year warranty on batteries. The warranty for commercial users is 1 year. Further details can be found on our website.

Designed so you can work comfortably all day long

The EGO POWER+ mowers, blowers, hedge trimmers, string trimmers and chain saws have all been designed to operate with low levels of vibration.

This allows you to comfortably work with them all day long, without added risk to your health. So choose EGO POWER+ and protect yourself every working day.

Exposure to noise is no longer a problem

Another way the EGO POWER+ system protects users is by operating at a noise level lower than their gas alternatives. Traditional gas tools can be noisy, and long-term, daily exposure to this may lead to hearing loss and tinnitus — a permanent ringing sensation in the ears.

All EGO POWER+ tools operate at lower sound pressure levels than comparable gas-powered products, which will reduce the potential of damage, especially over long-term use.

Operating noisy equipment can also lead to an increase in work-related stress. Many factors are known to contribute to this condition and rarely is there a single cause. However, because EGO POWER+ tools operate at lower sound levels, the working environment is quieter and less stressful for the user.

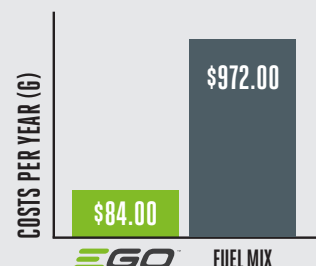

Those who regularly use handheld power tools may be at risk from Hand-Arm Vibration (HAV) Syndrome. Also known as "Vibration White Finger", this syndrome causes painful and disabling disorders of the blood vessels, nerves and joints.

Those affected may struggle with fine motor tasks, and subsequent exposure to cold can cause extreme pain in the fingers. However, HAV syndrome is fully preventable. One way it can be avoided is to choose tools that vibrate less than traditional gas-powered products — tools just like those in the EGO POWER+ line-up.

Gas-beating benefits...

USING FUEL MIX	
COST PER GALLON**	\$2.70
GALLONS PER DAY	1.5
DAILY COST	\$4.05
MONTHLY COST	\$81.00

USING EGO POWER+	
COST PER CHARGE*	\$0.0566
CHARGES PER DAY	6
DAILY COST	\$0.35
MONTHLY COST	\$7.00
ANNUAL COST	\$84.00

*Cost of charging according to Wh pricing in USA. ** Cost of gas based on gasbuddy.com average price. EGO calculations based on daily use of an EGO Power+ Mower with a 7.5Ah Battery charged on a 550W Rapid Charger. All estimated calculations based on a commercial 6 hours use per day and a 20 day working month.

THE POWER TO OUTPERFORM GAS

ZERO EMISSIONS DURING USE

Our Arc Lithium battery gives gas-matching power without the fuss and fumes

LESS NOISE AND LESS VIBRATION

EGO POWER+ tools operate at lower noise and vibration levels than traditional gas-powered tools

EASY SET UP AND STARTING

No filling up with fuel; with EGO POWER+ just click in the battery and get to work

LOWER RUNNING COSTS

The cost of running an EGO POWER+ product for a month is the same as using a two-stroke product for a day

FOLD FLAT, EASY-STORE DESIGN

Unlike large heavy gas mowers and snow blowers, the EGO POWER+ mowers' fold flat design makes storage and cleaning simple

NO GAS TO STORE

Instead, EGO's Rapid Charger refuels batteries in as little as 25 minutes – less than the run time you get from a full charge

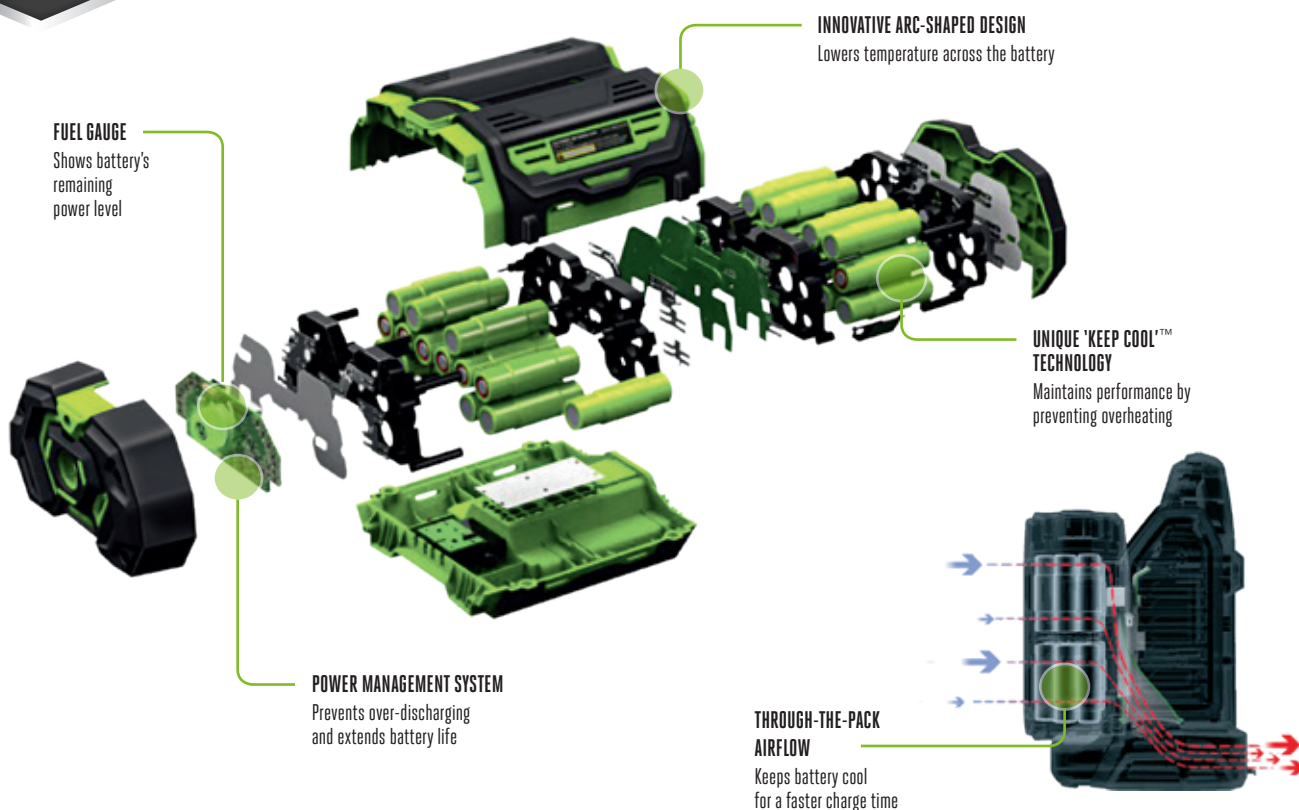

DELIVERING THE INDUSTRY'S HIGHEST ENERGY CAPACITY

The industry's most
advanced battery
technology delivered by
our unique, patented
ARC Lithium design

There is no other battery like EGO's POWER+ Arc Lithium[™] 56v battery. Unlike conventional brick-shaped batteries that can overheat and lose power, our unique Arc design dissipates heat more effectively. Combined with our advanced power management system and innovative, proprietary 'Keep Cool'[™] cell technology, Arc Lithium batteries deliver long-lasting power and unmatched performance. In fact, the 7.5Ah battery delivers the industry's highest energy capacity in a portable handheld battery.

When it's time to recharge, the Rapid Charger's innovative fan system cools the battery - so it starts charging earlier and finishes sooner. As a result, the time it takes to refuel the battery is often less than the run time you get from a full charge. So with 2 batteries on the go, you'll never run out of power and can keep going all day long. Plus, with a range of battery sizes available from 2.0Ah to 7.5Ah, you can choose the power you need to tackle any task.

GAS-MATCHING POWER PACKED WITH FEATURES

Significantly quieter than a gas mower and with far lower service costs and zero emissions during use, the EGO POWER+ mower line-up offers a variety of large cutting capacities. This lets you comfortably tackle any lawn in fewer passes, while the large capacity bag needs emptying less often.

The variable-speed self-propel motor keeps you in control as you cut. Plus, on a single charge, our battery gives you up to 60 minutes of cut time. *On select mower models we have automatic load sensing; this helps deliver the optimal cutting speed to maximize battery run time while maintaining grass-cutting performance."

The 3-in-1 functionality lets you bag, mulch or side discharge clippings while the LED headlights let you work further into the day. And when you're done, the easy-fold design makes cleaning and storage simple.

POWER+ 15-INCH STRING TRIMMER

**POWER TO
CLEAR THICK BRUSH**

EFFICIENT, EFFECTIVE AND EASY TO HANDLE

With a large cutting swath to cut any task down to size, the EGO POWER+ string trimmers feature an adjustable handle for optimum balance and control.

The soft-start function and constant-speed control ensure consistent trimming and on a single charge, and the Arc Lithium battery gives you all the power you need to tackle the toughest conditions.

Other features include variable speed, easy line replacement and dual-line trimming for faster cutting and lower vibration, while the free-rotating bump head lets you rest the cutting head on the ground without it being worn away.

**HI-EFFICIENCY
BRUSHLESS MOTOR**
Delivers more power,

*Run time may vary and depend on the battery used, charge level of battery, condition of grass, and user's operation technique.

STEP 1
Insert the line into the eyelet and push the line until the end of the line comes out of the opposite eyelet.

STEP 2
Pull the line from the other side until equal lengths of the line appear on both sides of the trimmer head.

STEP 3
Press and hold the line-loading button to start the line-winding motor.

NOTICE: Avoid repeated operation of the winding system in rapid succession to reduce the possibility of motor damage.

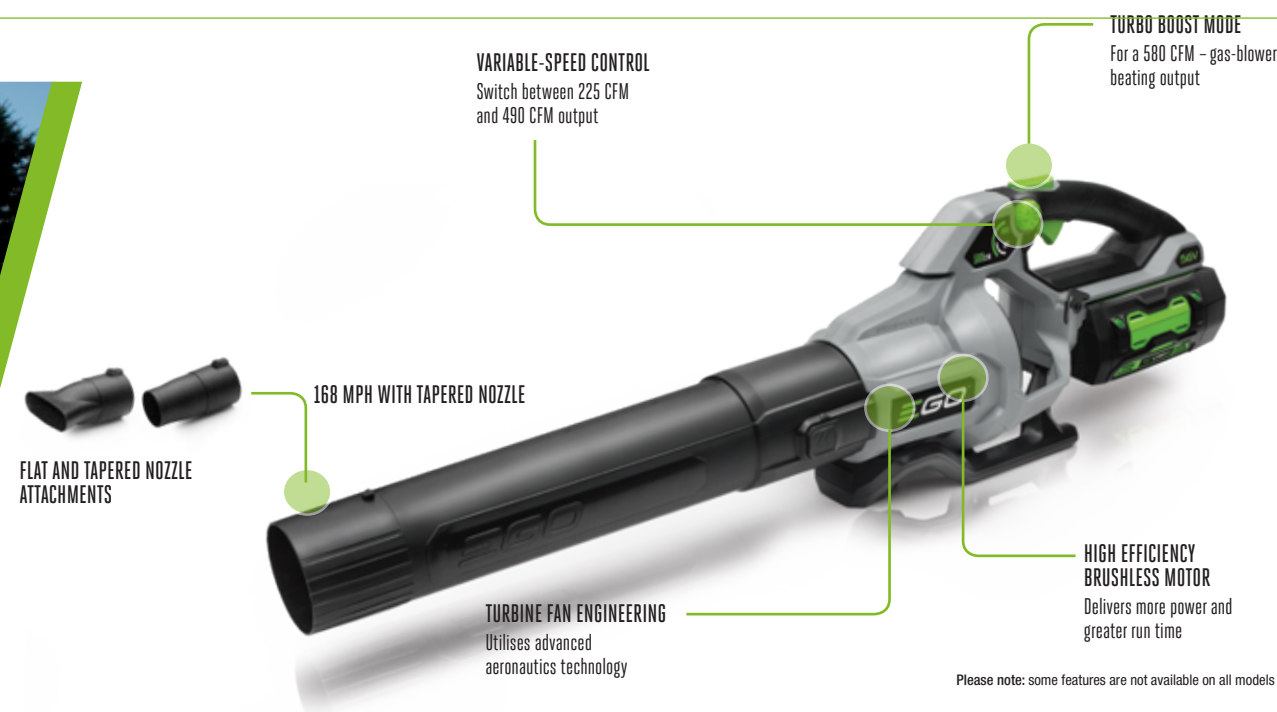

MORE POWERFUL THAN A HAND HELD GAS BLOWER

Powered by a high-efficiency brushless motor, the EGO POWER+ blowers feature jet turbine technology and a large diameter tube to give maximum airflow.

With a variable-speed function designed to keep you in control, they also feature a Turbo Boost mode capable of pushing air up to 110 MPH, depending on the model. That's more than most hand held gas blowers on the market and that's enough power to clear up even the biggest windfall.

LB5300 EGO POWER+ BLOWER

Variable-speed setting, large blower tube, up to 530 CFM output in Turbo Boost mode

POWER+ BACKPACK BLOWER

POWERFUL IS AN UNDERSTATEMENT

It moves air at a staggering 600CFM: the EGO POWER+ backpack blower is the industry's most powerful.

With up to 120 minutes of run time, 50% less weight than gas models and 8 times quieter, the EGO backpack blower blows all gas blowers away.

Equipped with a premium brushless motor and turbine fan engineering, the backpack blower is one of a kind. Adjust the waist belt and tube for your needs and comfort. Harness industry leading Arc Lithium technology to clear your lawn.

POWER TO REACH NEW HEIGHTS, THE NEW EGO POWER⁺ MULTI-HEAD SYSTEM

With a single power unit and many different attachments, it's easy to see why the EGO Power⁺ Power Head System is a very handy tool to have around. The simple and secure tool-free coupling makes switching attachments quick, easy and safe. And with our innovative Arc Lithium 56v battery supplying all the power you need, you can breeze through a variety of jobs without the fuss or fumes and with less noise than traditional gas-powered tools. Plus the extension pole gives you the reach to tackle any height.

Attachments available:

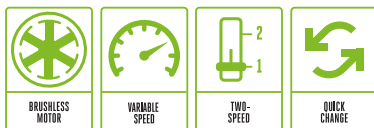

- Pole saw
- String trimmer
- Edger
- Extension pole

PH1400 POWER+ POWER HEAD

With a powerful and smooth high-efficiency brushless motor, it's lightweight, perfectly balanced and ready for any job, big or small

	PH1400
MOTOR TYPE	Brushless

**TOOL-FREE
CHAIN TENSIONING
AND DURABLE BAR AND CHAIN**

SAFE, SUPERIOR PERFORMANCE, CUT AFTER CUT

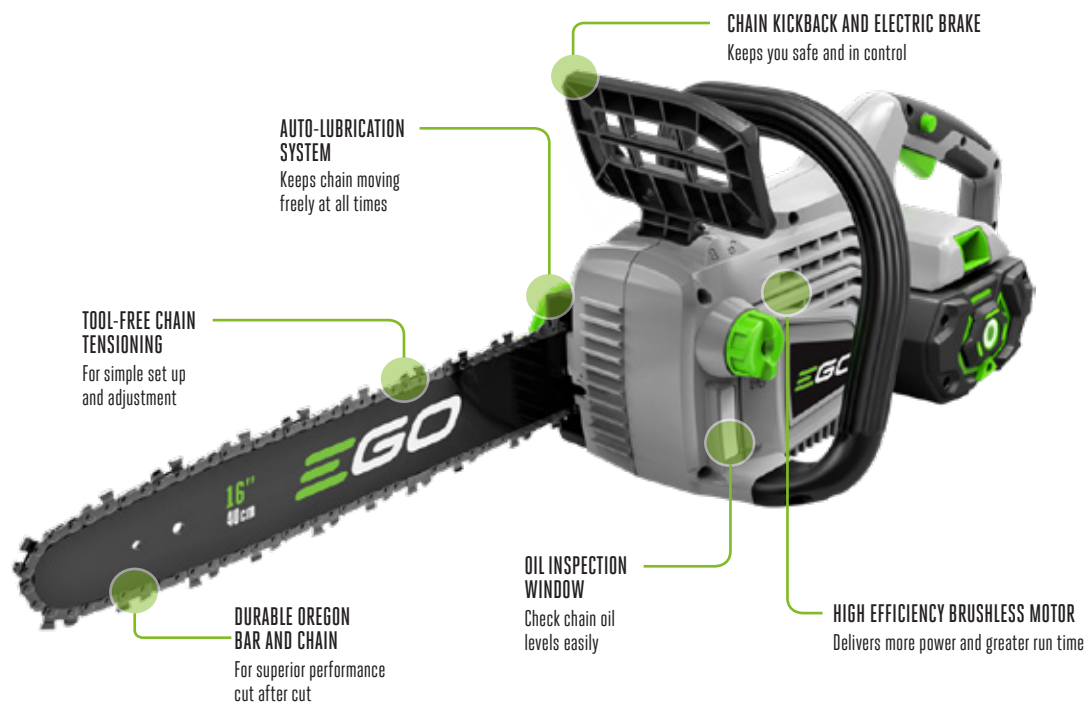

The EGO POWER+ chain saws are built tough to tackle even the hardest jobs. Trunks, logs, branches, nothing gets in its way.

The tool-free chain tensioning makes set up and adjustment simple. Check the lubrication level through the oil inspection window and you're ready to go.

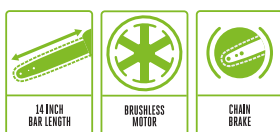

It really cuts it when it comes to safety, too. The chain kickback and electric brake protect you while you work. And the auto-lubrication system keeps the chain spinning freely at all times.

Plus, with EGO's Arc Lithium 56v battery delivering such impressive run times and incredible power on a single charge, it'll keep you working cut after cut after cut.

POWER⁺ SNOW BLOWER

THE INDUSTRY'S 1ST TRUE ALTERNATIVE TO GAS

Featuring Peak Power Technology™, it combines the power of any two EGO 56-volt ARC™ Lithium batteries for superior clearing power, even heavy, wet snow. Built with a high-efficiency brushless motor and a 21 in. wide intake, the EGO POWER+ Snow Blower can handle it all, even what the city snow plow leaves behind.

Easily adjust the variable-speed auger to control how far the snow is thrown, up to 35 ft., for maximum control. A robust, handle-mounted chute-adjustment lever puts the user in control when re-directing the snow up to 200° from side to side. Two bright LED headlights make it convenient for use early in the morning or at night and the robust steel chassis is built for aggressive use in demanding conditions.
